Overview: Fantastic Duplex in picturesque Pueblo Mijitas in Mijas Golf. Pueblo Mijitas looks like a miniature Andalusian village and is located in upper Mijas Golf, surrounded by nature in a tranquil spot. The community has a beautiful pool and garden area as well as a very nice Italian restaurant, small supermarket and rent-a-car. The property is located in the Western part of the community and enjoys beautiful, unobstructed views of the surrounding countryside and mountains. By the entrance door is a small private patio and entering the property you have a bright open-plan kitchen and living room, dining room, bathroom and an enclosed terrace. Downstairs are two double bedrooms, both with direct access to the private terrace with afternoon sun. There is also a bathroom and a laundry area on this floor. The property has been nicely renovated in Scandinavian style and comes fully furnished. There is no private parking space, but there is plenty of parking on the street outside. A really nice property at a great price!
